Our Mission:
- Promote professional development and fellowship in the Chemical Engineering Department
- Provide leadership, networking, and personal growth opportunities
- Focus on issues pertinent to female graduate students, post-doctoral fellows, faculty, and visitors
- Encourage young girls to enter engineering through outreach

Professional Development Programs

✓ Communication and Presentation Skills

“Scientific Communication to the Public”
Professor David Feldshuh
Performing and Media Arts

“Effective Negotiations”
Erica Dawson
Johnson School of Management

✓ Career Guidance

Industry Alumni Career Seminar
Dr. Martha Jones (PhD ’97)
Intel

Patent and Entrepreneurship Workshop
Dr. Alice Li of Cornell’s technology transfer office and start-up founder Prof. David Putnam

Life After Graduate School
Career discussions with Prof. Roseanna Zia (formerly of General Motors) and Prof. Matthew DeLisa (founder of Glycobia start-up company)

https://cbegwg.cbe.cornell.edu
Outreach Programs

✓ WOMEN Outreach Event for local 10th graders interested in science and engineering

✓ CATALYST and CURIE demonstrations for female and minority high-school students

Fellowship and Social Events

✓ Welcome dessert for first-year PhD women

✓ Wine-tasting mixer

✓ Summer berry-picking trip and picnic
