

Cornell University

Robert Frederick Smith School of Chemical and Biomolecular Engineering
Graduate Women's Group

Women's Outreach in Materials, Energy, and Nanobiotechnology (WOMEN) 2019 Parent/Guardian Survey

The purpose of this survey is to provide event participant background information. The Graduate Women's Group, an organization of Cornell engineering graduate students that runs this event, uses this information to help us evaluate the effectiveness of this event for program improvement and funding purposes.

- Your responses have no impact on your child's participation in the WOMEN event.
- Your responses for every question are completely voluntary.
- Your responses are completely anonymous. No identifying information is associated with this survey.

Please mail your completed survey form using the provided addressed and stamped envelope.

For questions regarding this form, please contact Alicia Aquino at aka77@cornell.edu

Parent/Guardian 1

Relationship to student: _____

Highest degree attained (please circle): High School Associates Bachelors Masters Doctorate Other

Field of study of highest degree, if applicable: _____

Current occupation: _____

Parent/Guardian 2 (if applicable)

Relationship to student: _____

Highest degree attained (please circle): High School Associates Bachelors Masters Doctorate Other

Field of study of highest degree, if applicable: _____

Current occupation: _____

Total household income (please circle): 0-20K 21-40K 41-60K 61-80K 81-100K 101K+

For the following, please indicate how much you agree or disagree with each statement:

I anticipate that my daughter will attend a 2-year or 4-year college:

Disagree	Somewhat Disagree		Not sure		Somewhat Agree		Agree			
0	1	2	3	4	5	6	7	8	9	10

My daughter has a higher than average interest in engineering or science or math:

Disagree	Somewhat Disagree		Not sure		Somewhat Agree		Agree			
0	1	2	3	4	5	6	7	8	9	10

I have a good understanding of what a career in engineering or science would be like:

Disagree	Somewhat Disagree		Not sure		Somewhat Agree		Agree			
0	1	2	3	4	5	6	7	8	9	10

It's common for people in the community that I live in to attend college for science or engineering:

Disagree	Somewhat Disagree		Not sure		Somewhat Agree		Agree			
0	1	2	3	4	5	6	7	8	9	10

There are female scientists or engineers in my family or community that I live in:

Disagree	Somewhat Disagree		Not sure		Somewhat Agree		Agree			
0	1	2	3	4	5	6	7	8	9	10

Which historical or modern day women would you associate with making important contributions to science, engineering, medicine, mathematics, or technology?
